

# Take It All

Crystal Ball

I can see that you're hungry  
With a taste for meat  
Could it be that you want me  
Another bite to eat

One more hunter waiting for her prey  
Someone's gonna get fed today  
One more morsel on the buffet of life  
Eaten alive no fork no knife

Come and share what's on my table now  
I'll be sure to feed you well

Take it all - take it now - take the best of me  
Take it all - take it now - help yourself  
Take it all - take it now - take the rest of me  
Take it all - take it now - for yourself  
Take it all - take it all

The taste of pleasure handed on a plate  
Have your refill it's never too late  
I will feed you with my carnal sin  
Quench your thirst - let the feast begin

Come and share what's on my table now  
I'll be sure to feed you well

Take it all - take it now - take the best of me  
Take it all - take it now - help yourself  
Take it all - take it now - take the rest of me  
Take it all - take it now - for yourself  
Take it all - take it all

Take it all...
