

# Walls Fall Down

Crystal Ball

So many years have passed  
We've been up and down  
Now we're back at last  
Gonna take the crown

All this time we couldn't let it go  
Call on me we'll take it slow  
Oh my God we can't stop now  
Don't even try we're ready to blow

Walls fall down  
Rock them to the ground  
Walls fall down  
Lose control and give in to the sound

So you like heavy  
All around the clock  
Hard yet steady  
We're hungry to rock

You like it rough  
We play it hard  
Can't get enough  
We won't let you down  
Were ready to rock

Walls fall down  
Rock them to the ground  
Walls fall down  
Lose control and give in to the sound

We are the sound and the light in the dark  
We all just came here to rock
