

# I Got Angels

Crystal Bowersox

I'm not gonna give up  
I'm not gonna slow down  
I'm not gonna play rough  
I wanna stick around  
'Cause I'm not alone here  
There is nothing to fear  
'Cause I've got angels

I don't wanna lose you  
You've been a good friend  
Supporting what I do  
No matter the distance  
You tell me it's alright  
I'm gonna make it through the night  
'Cause I've got angels

Angels watching over me  
Angels I don't always see  
Wherever I go I always know  
I've got reason to believe  
I've got angels

Sometimes the pain, it just brings me down  
But I know you're there behind the clouds  
Shining a light though I'm too blind to see

'Cause my heart is broken  
But I'm gonna bounce back  
I just need a moment  
To realize what I have  
There'll be a strong hand  
To lift me up again  
'Cause I've got angels  
I've got angels

Angels watching over me  
Angels I don't always see  
Wherever I go I always know  
I've got reason to believe  
I've got angels...
