

The Storm

Crystal Bowersox

They say don't play with lightning
You hear that thunder go inside
An angry wind is mighty frightening the hail come down go run and hide
But a raindrop she ain't scared of the river
A spark ain't afraid of a raging fire
Ain't no better way to put it to you Mister
You're looking a hurricane in the eye

I am the storm
I am the storm
I am the storm
I am the storm

So keep your hands to yourself
Show a little respect
'Cause Mother Nature don't forgive and she won't forget

If you don't wait for an invitation
It won't matter if years go by
A whirlwind blowing up an accusation
Makes a black cloud cover up your blue sky

She looked so hot that you just had to kiss her
She said no but it fueled the fire
Ain't no better way to put it to you, Mister
This hurricane's stronger than your desire

We are the storm
We are the storm
We are the storm
We are the storm

She won't forget
She won't forget
She won't forget

They say don't play with lightning
You hear that thunder
Run and hide
An angry wind is mighty frightening
The hurricane's coming

We are the storm
We are the storm
We are the storm
We are the storm

We are the storm
We are the storm
We are the storm
We are the storm

We are
We are
We are
We are...
