

## Another Level

### Crystal Fighters

Pretty bird sing the sweetest song  
Had me cryin', laughin' all night long  
Flowers glowin' every color of the rainbow  
Got me goin' like a hot volcano

With the teachings of my silence  
Way you dance behind my eyelids  
Really good at goodbyes  
Tryin' not to open my eyes

Oh my, my, could you be my one today?  
Turning my levels up to you  
I came from the depths to say  
You deepen my level  
I'll be your one if you'll be my one  
I'll be your one if you'll be my one  
(Today) Your love's another level  
(Today) Your love's another level

Pretty gritty here without you girl  
Got me chirping all the birdies round the world  
Chase ya down the waterfall, we flying 40 foot  
Divin' naked head first now before we look

With the teachings of my silence  
Way you dance behind my eyelids  
Really good at goodbyes  
Tryin' not to open my eyes

Oh my, my, could you be my one today?  
Turning my levels up to you  
I came from the depths to say  
You deepen my level  
I'll be your one if you'll be my one  
I'll be your one if you'll be my one  
(Today) Your love's another level  
(Today) Your love's another level

Girl you know I'm so down  
Every time you're around  
Taking me baby  
Be there when I open my eyes

Oh my, my, could you be my one today?  
Turning my levels up to you  
I came from the depths to say  
You deepen my level  
I'll be your one if you'll be my one  
I'll be your one if you'll be my one  
(Today) Your love's another level  
(Today) Your love's another level

(Today) Your love's another level  
(Today) Your love's another level
