

# Love Alight

Crystal Fighters

I don't want a way out  
No the flame will never die  
No it won't go out  
Cause we're standing by

If the fire stops burning  
We set it back the light  
And it will shine forever  
As long as we are alive

As it is  
As the time  
It exists  
Living in, here it is

As it is  
As the time  
It exists  
Living in, here it is

As it is

Girl you set love alight  
You set my world on fire  
Ah, you set love alight  
You set my soul on fire

Ah, you set love alight  
You set my world on fire

Yeah, I'm seeing all the truth  
I see it going in your eyes  
If you look the melody  
Yeah, we can make it right

Have a heart burning fire  
Spread love all through the night  
And feel love every time  
Cause music makes me feel alive

As it is (as it is)  
As the time (as the time)  
It exists (it exists)  
Living in, here it is

As it is (as it is)  
As the time (as the time)  
It exists (it exists)  
Living in, here it is

As it is

Girl, you set love alight  
You set my world on fire  
Ah, you set love alight  
You set my soul on fire

Ah you set love alight  
You set my world on fire
