

# Wave

## Crystal Fighters

We're here, our way  
Hear the same groove  
Get on the wave, universal suns  
One thousand suns  
With the power of one thousand universes from the mind of one

In the galaxy of truth, your stars are ours  
Your heart is a sun in the depths of a month  
The space is on , there's gravity inside  
We're in the universe, I'll find my way

We're riding on a wave babe  
We're on the same wave  
We're on a wave babe  
We're flying on a wave babe  
We're on the same wave  
We're on a wave babe  
We're on the same wave

Now the world's in motion, now my body feels  
Moving through oceans on the earth beneath  
Oh universal feelings, all stars explore  
And keep us floating for the flight to come

In the galaxy of truth, your stars are ours  
Your heart is a sun in the depths of a month  
The space is on , there's gravity inside  
We're in the universe, I'll find my way

We're riding on a wave babe  
We're on the same wave  
We're on a wave babe  
We're flying on a wave babe  
We're on the same wave  
We're on a wave babe  
We're on the same wave

We're on a wave  
We're on a wave  
A universal body, the garden of light  
Of weakening spirits sliá'-ping deep inside  
The back way to your heart, skipping stones in the sunlight  
Time lies by, just be alive

We're riding on a wave babe  
We're on the same wave  
We're on a wave babe  
We're flying on a wave babe  
We're on the same wave  
We're on a wave babe  
We're on the same wave  
We're on a wave babe  
We're on the same wave
