

99% of the Time

Crystal Gayle

Well it's over, so long
There's no shoulder, to lean on
But I'm doing alright standing on my own
I can depend on me

Now everything I wanted to do
I'm doing it now that I'm living without you
And suddenly right out of the blue
I just can't help it, I'm thinking about you

Ninety-nine percent of the time
You're the only love
Still beating in this heart of mine
Alone at nights I hold somebody new

And I start to believe I'm finally over you
But ninety-nine percent of the time
You're the only love still beating
You're the only love still beating in this heart of mine

Oh I wonder sometimes
Do you ever miss the good times
Oh do you wanna call me on the telephone
The nights when you're alone

I hear your doing just fine
Are you really happy living without me
I know I'm gonna get by
But I'll still be here if you're thinking about me

Ninety-nine percent of the time
You're the only love
Still beating in this heart of mine
Alone at nights I hold somebody new

And I start to believe I'm finally over you
But Ninety-nine percent of the time
You're the only love still beating
You're the only love still beating in this heart of mine

And suddenly right out of the blue
I just can't help it, I'm thinking about you

Ninety-nine percent of the time
You're the only love
Still beating in this heart of mine
Alone at nights I hold somebody new

And I start to believe I'm finally over you
But ninety-nine percent of the time
You're the only love still beating
You're the only love still beating (still beating)
You're the only love still beating in this heart of mine
