

Come Back (When You Can Stay Forever)

Crystal Gayle

I'm an open door
You keep walkin' through
With all my love
I've let you have your way
But I just can't go on
Lovin' often all with you
I've takin' all the leavin' I can take

Come back when you can stay forever
Do all your leavin' while you're gone
Come back when you can stay forever
Love's not really love that lasted love
That love

We must look at love
From different points of view
I just can't pretend it isn't so
But one day you may leave from me
What I need from you
When you do, you'll never wanna go

Come back when you can stay forever
Do all your leavin' when you're gone
Come back when you can stay forever
Love's not really love that lasted love
That love

Come back when you can stay forever
Love's not really love that lasted love
That love
