

Love To, Can't Do

Crystal Gayle

Somewhere along the way I fell in love
I promised not to stray but now you're trying to make it rough
You've shoulda not look so good and I should not be here
But hardest racin' the headest spinnin'
But one thing here is clear

Love to but I can't do right now, won't to but I can not stay
Love to but I can't do, hate to leave you here this way
If I was a free girl baby everything could be so right
Love to but I can't do, hate to leave you here tonight

So many older roads that I could take
Think that I'll just did on home back to my own interstate
Your mood is full of pressure and I'm full of fear
Hardest racin' the headest spinning, I'll better get out of her
