

Old Habits Die Hard

Crystal Gayle

It's my decision
He looks my way
Within a sun expression
Just as it to say

It won't be easy
"L'amour" is right
For get the just one romance
We act tonight

I start to weep in the music strong
My conscience speakin'
How know it's wrong

Give it up, remember what you said
This kind of love doesn't happen every day
Give it up, that's the way it's does
Discover, all habits die hard
Temptation makes a fool out of us all

Made my mind up
It had to end
So why this end decision
When he's close again

And if thought's a feeling
I can't deny
With those old memories still
That had crossed my mind

I thought by now that the flame have gone
How do you loves that I'm still holding on

Give it up
Remember what to said
This kind of love doesn't happen every day
Give it up
That's the way it starts
Discover, old habits die hard
Temptations makes a fool out of us all

(Te, te, temptations, tem, temptations, tem, temptations)
(Tem, tem, temptations, temptations, temptations)

She trusts he's holding on
He's your second thought
(Old habits die hard)

Give it up, remember what you said
This kind of love doesn't happen every day
Give it up, that's the way it starts
Discover, old habits die hard

Give it up, remember what you said
This kind of love doesn't happen every day
Give it up, that's the way it starts
Discover, old habits die hard

Give it up, remember what you said
This kind of love doesn't happen every day
Give it up, that's the way it starts
