

## Sparklin' Look of Love

Crystal Gayle

When I saw you my heart went thumpety-thump  
Then you smiled at me and my head went bumpety-bump  
I knew that I was a goner, it wasn't hard to realize

You put that sparklin' look of love in my eyes

I can hear the love birds singing twiddly-dee  
And the feeling that I feel is a fiddly-dee  
And a world I'm in love and what a sweet surprise

You put that sparklin' look of love in my eyes

That look of love is in my eyes as far as I can see  
And everything I touch turns to love around me  
You took the blue from my heart and you placed it in the sky

You put that sparklin' look of love in my eyes

That look of love is in my eyes as far as I can see  
And everything I touch turns to love around me  
You took the blue from my heart and you placed it in the sky

You put that sparklin' look of love in my eyes  
You put that sparklin' look of love in my eyes
