I'm not gonna push myself
It's been a while sorry for the wait
We back to holla, we still goin, can't make us wait
Go pop-pa-pop-pop even if I feel it
Say what-wa-what-what ! Today's eye is on a
Extraordinary man, taking a nap during free time hey
His sexy side is funky and extraordinary, to 1000
Rapid motion on and off I'm rollin'
Yo dust cloth for a down and dirty na style
Misdemeanor
STOP ! The hatin' and the negativity
And slow down...
He's as good as gone ... So
STOP ! Don't understand why they follow me
Here we go NOW ! (Oh my !) Beats be full

Today still, again I'm here alone
Still no one calls me
But tonight I want to go out
To do that, take unpleasantness and leave it behind
Girl's in the front raise your hands
Don't let worries go around
Cool guy's in the back raise your voice and make noise until morning
Tonight's party time, baby can't you see

I've come to enjoy
It's OK to forget about tomorrow
