From the east to the west  
We been killing all the fake shit  
Imma bring it like 1, 2, 3, 4!

Far east and across the globe  
Anybody heavy metal holding down your own  
For sure  
Be the witness of this lit mess  
Apeshit, apeshit

Dropped out self taught  
Ain't nobody gave a fuck  
Look now decked out  
Devilusers where you at  
They be tryna hate me  
Well I'm not complaining  
I've outgrown the parties  
"Bitches and sake"

Street lights they shine our home  
Godzilla every day back in Tokyo  
Cause the mark of the beast has been carved right upon me  
Apeshit, apeshit

Neon lights  
We're walking through  
The rising sun  
We see in the west

I'm self made and I know cause I'm jaded  
Now I've taken control  
I'm self made and I know cause I made it  
Watch your back against the world  
Where the city never sleeps for us

Neon lights  
We're walking through  
The rising sun  
We see in the west

Godzilla taking over your cities  
We've outgrown these parties like bitches and sake

I'm self made and I know cause I'm jaded  
Now I've taken control  
I'm self made and I know cause I'm jaded  
Now I've taken control

Neon lights  
We're walking through  
The rising sun  
We see in the west

Let's go

I'm self made and I know cause I'm jaded  
Now I've taken control

I'm self made and I know cause I made it  
Watch your back against the world  
Where the city never sleeps for us
