

# The Circle

## Crystal Lake

You've become their broken dreams  
Innocence's a dying breed  
Liberate your drowning souls  
Make way to the brand new world

Evil does what it loves everywhere it goes  
The good protect the rights, no one will know  
Amen  
Amen  
Sin was where humanity was called for

(Break us, break us)  
Chains confine us  
(Save us, save us)  
Here from this world  
(Take us, take us)  
We sacrifice our own true will

So rise and pray  
The end has become your doors  
To break away  
From demons inside us all

We'll live and reign forever more  
Forever more

Your perfect nature is the godless rapture  
Fault and fracture  
What you want you'll never capture

Long and forgotten these rules made for nothing  
Nothing will save you and you will save nothing

(Break us, break us)  
Chains confine us  
(Save us, save us)  
Here from this world  
(Take us, take us)  
We sacrifice our own true will

So rise and pray  
The end has become your doors  
To break away  
From demons inside us all

So rise and pray  
The end has become your doors  
To break away  
From demons inside us all

Everybody's got their problems (yeah)  
So we'll have to pity for the broken (fuck yeah)  
No salvation for the faithless (no)  
Prepare the altar sacrifice  
Everything you got

Everybody's got their problems (yeah)

So we'll have to pity for the broken (fuck yeah)  
No salvation for the faithless (no)  
Prepare the altar sacrifice  
Everything you got

Everything you got

Thy will be done in hell for it is yours (it is yours)  
Almighty Lord who lives and reigns forever more  
Thy will be done in hell for it is yours (it is yours)  
We praise His holy name as servants of the Lord

You've become their broken dreams  
Innocence's a dying breed  
Liberate your drowning souls  
Make way to the brand new world
