

# The Fire Inside

Crystal Lake

Forget what we used to be  
We are not afraid

Never show a white flag and we will never fade  
At the point of no return  
Now it's our turn to rise

We have returned to take the sovereignty back to our hands  
Don't fuck with us

No matter what they say  
This is who I am  
I don't give a fuck about the way they're feeling  
Can you see the fire inside  
Burning up as long as we are alive  
They will never hold us down  
'Cause we stand as one  
No compromise and no remorse

Walk through the path of perseverance  
What doesn't kill me makes me stronger  
We are not fuckin' dead

This is evolution  
Start the revolution  
Go

This is who we are and I will never be the same  
Watch me  
No compromise  
No remorse

Here we stand

I came here to breathe again  
This is who I am and here is where I stand  
This is who we are  
Here is where we stand

Here I stand

We are not fuckin' dead
