

# My Emmanuel

Crystal Lewis

God is watching me  
God is watching me  
But the tide comes up so high  
And i'm on my knees  
And i'm hanging on the reef  
As the rain falls from the sky  
And the wind moves the sea  
Then waves crash down on me

God is watching me  
God is watching me  
I can see the lightning now  
And i start to fear  
For thunder's all i hear  
I must hold on somehow  
With all of my might  
Through this dark, stormy night

My emmanuel (god is with us)  
My emmanuel (god is here)  
My emmanuel (god is with us)  
My emmanuel

God is watching me  
God is watching me  
And the clouds move through the sky  
And the sun shines down  
And the birds fly all around  
And the reef stands oh so high  
And it shelters me  
From the wind and waves and sea
