

Beautiful Day

Crystal Shawanda

When the rain's falling down, and my skies are grey,
And I'm feeling so scared, it won't go away,
And I don't even have one good reason,
Then you make it a beautiful day.

And I, finally see the sun peeking up, chasing my doubt,
And I got a smile whenever you are near cause when you're here,
You're like a beautiful day.
Such a beautiful day

When I can't get it right and it all goes wrong,
And I can't quite come up with a hook for this song.
With no silver lining but you're right on time when you come along.

And I, finally see the sun peeking up, chasing my doubt,
And I got a smile whenever you are near cause when you're here,
You're like a beautiful day, yeah

I, finally see the sun peeking up, chasing my doubt,
And I got a smile whenever you are near cause when you're here,
You're like a beautiful day, yeah
You're such a beautiful day, yeah

And it stopped raining.
It stopped raining.

You're my beautiful, beautiful, beautiful day.
Such a beautiful day
Such a beautiful day
Such a beautiful day
You're my beautiful day
You're my beautiful day
