

Closer

Crystal Shawanda

It's just me and you
And the man, and the moon shining down
A blanket of stars up above
And a quilt on the ground
I've waited so long to get you all alone in the dark
I just wanna hold you 'til I feel the beat of your heart

I wanna get closer, closer
Closer the love line
When your body's wrapped into mine, yeah
Closer to Heaven that I've ever been in my life
Before the night's over, I wanna get closer

My two aching arms have been longing
To hold you this way
My lips have been praying
That I found the right words to say, yeah
I don't want to own you or try to control how you feel
I want you to meet me, believe me, this feeling is real

I wanna get closer, closer
Closer than moonlight
When your body's wrapped into mine, yeah
Closer to Heaven than I've ever been in my life
Oh, before the night's over, I wanna get closer

Oh, yeah

Whoa, closer than moonlight
When your body's wrapped into mine, yeah
Closer to Heaven than I've ever been in my life
Oh, before the night's over, I wanna get closer
Before the night's over, I wanna get closer, mmm yeah
