

Hold Me

Crystal Shawanda

We're living in a strange situation, what's going on
It ain't the road we travel, baby, or the way we sang our songs
So come on over here, honey, won't ya whisper in my ear
I wanna hear you say

Hold me baby like you used to do
Aww hold me baby like you used to do

The world is spinning way too fast, makes it hard to see
Just take it back where it started baby when the love is all we
need
So come on over here, honey, won't ya whisper in my ear
I wanna hear you say

Hold me baby like you used to do
Aww hold me baby like you used to do

Sometimes we can lose our way and get caught out in the rain
Then all it takes is a little touch and it's back to love again
I wanna hear you say

Hold me baby like you used to do
Aww hold me baby like you used to do

So come on over here, honey, won't ya whisper in my ear
I wanna hear you say

Hold me baby like you used to do
Aww hold me baby like you used to do, like you used to do

Like you used to do

Hold me baby like you used to do
Aww hold me baby like you used to do
