

Slippin' Away

Crystal Shawanda

Pretty flowers all up in my hair
Soft spring showers, rainbow hanging in the air
Your white T-shirt is drippin' and soakin' wet
I know it's gonna hurt if I happen to forget

Times like this don't happen every day
We can hold on but still they won't stay
Like an old pair of jeans, memories will fade
Your every smile and tear, I would never trade
And just like butterflies, time keeps slippin' away

Down a back road, driving like a fool
How the time goes when hangin' with the crew
I remember, forever seems so clear
In September, Jimmy died with summer that year

Oh, times like this don't happen every day
We can hold on but still they won't stay
And like an old pair of jeans, memories will fade
Your every smile and tear, I would never trade
And just like butterflies...

Little baby swinging in her swing
Our little daisy just came along this spring
And just like butterflies, time keeps slippin' away
It just keeps slippin' away
There it goes slippin' away
Slippin' away
