

Tender Side

Crystal Shawanda

I'm a rock nobody can roll
You say I got a heart as solid as stone
I ain't lonely, just alone
Yeah and I like it that way

I've been burned with ashes before
I don't play with matches no more
Keep those flames far from my door
The thrill is gone anyway

And then you come around
And everything changes
My will gets weak
And the crazy thing is

All you do is smile
And there I go
Showin' my tender side
Showin' my tender side

I can walk and I can talk tough
I say that you can look
But you better not touch
And I swear I've had it with love
Yeah, only fools fall for that

But then you come around
And everything changes
My will gets weak
And the crazy thing is

All you do is smile
And there I go
Showin' my tender side
Showin' my tender side

There's a part of me
The tender heart of me
That can't help but want to believe
Maybe you could be the one

'Cause when you come around
Everything changes
My will gets weak
And the crazy thing is

All you do is smile
And there I go
Showin' my tender side
I keep showin' my tender side
I keep showin' my tender side
Yeah, I'm showin' my tender side

I'm a rock nobody can roll
