

What You Gonna Do About Me

Crystal Shawanda

You say it's over and you're ready to move on
You want to believe all the fire is gone
But I feel some hesitation, even as you leave
Think it through, oh, what you gonna do about me? Yeah

It hasn't always been easy, you and I both know
But the easy way out can be a hard way to go
Did you think you can forget what we had so easily?
Think it through, oh, what you gon' do about me? Yeah

You might go out and find another
But what you think you lookin' for?
You might think you found a lover
But you'll still be wanting something more

When you close your eyes
You might be surprised at who you're gonna see
Think it through, oh, what you gonna do about me? Yeah

So stop and think it over
Before you leave it all behind
No matter where you go
No matter what you do
I'll still be there in the back of your mind

When you close your eyes
You might be surprised at who you're gonna see
Think it through, baby
Oh, what you gonna do about me? Yeah

You might spend a lifetime
Runnin' from my memory
Think it through
What you gonna do about me? Yeah

What you gonna do?
What you gonna do?
Hey, what you gonna do? Yeah
What you gonna do?
Oh, about me?
Oh, about me?
