

## Half a Moon

Crystal Stilts

Half a moon, half a man  
Have this sun and have this land  
But mind the blood there on your hand

I heard you have a tricky kiss  
Adumbrate the lovers that penetrate your lips

Evening night we meet again  
I'll slay the sun if you take my hand  
Evening night we meet again  
I'll slay the sun if you take my hand

I heard you have a tricky kiss  
Adumbrate the lovers that penetrate your myths

Half a moon, half a man  
Have this sun and have this land  
But mind the blood there on your hand

I heard you have a tricky kiss  
Adumbrate the lovers that penetrate your lips
