

Shattered Shine

Crystal Stilts

Shape shifting city stretches and bends the night
Figures fly past through space, faces shine with shattered light

A dream transmigrates it's way in the dark
Twisting it's secret course all through the city's heart
Shine shattered shine
Shine shattered shadow

Shape shifting city stretches and bends the night
Figures fly past through space, faces shine with shattered light

A dream transmigrates it's way in the dark
Twisting it's secret course all through the city's heart
Shine shattered shine
Shine shattered shadow
