Crystal Viper

Again, the monster of my mind try to hunt me down And only my defense is to stay awake Is my desire to be killed by horrible nightmare from the dark?

I always see these fingernails and madman's crazy eyes If he he'll kill me in my dream I'm dead for real - don't let t hat happen!

I'll face the terror in a life-death battle Only wake up me when he'll come! I'm not afraid to fall asleep and kill him! You're not my nightmare anymore!

I'm tired and I have enough - all these sleepless nights When he whispers "you are dead" or call my name This night I've got something for him I won't let him kill me Not this time!

I always see these fingernails and madman's crazy eyes If he he'll kill me in my dream I'm dead for real - don't let t hat happen!
