

Bright Lights

Crystal Viper

Paralyzed, I cannot move or scream
Eyes are open, trapped in evil dreams
Silence, madness, drowning down in fear
For I know it wasn't just a dream

Awake, I am scared to death
Blood runs cold and I barely can take a breath

Bright lights in the dark
Are they real? Is this a trap?
How can I survive? They control my mind
Bright lights in the dark
Are they real? Is this a trap?
How can I survive? They control my mind
No way out

Consciousness gets blurry, far away
Blinded by bright lights upon my head
Dark eyes fixed on me on starless nights
Please come back for me, I want to fly

Awake, I am scared to death
Blood runs cold and I barely can take a breath

Bright lights in the dark
Are they real? Is this a trap?
How can I survive? They control my mind
Bright lights in the dark
Are they real? Is this a trap?
How can I survive? They control my mind
No way out
