

Crystal Sphere

Crystal Viper

Deep in the black ocean, by sand it was covered
Only one in our world, huge pyramid which no one knows
So beautiful and smooth, one step to know the truth
Only dead ruins know what is it? Where is it coming from?

Blackened and burnt bronze metal hands keep the secret power
Diamond hidden in ocean's depth won't give us the answers

Source of light in the darkness
Over your mind and timeless
You feel there's something in the air
Source of light in the darkness
Over your mind and timeless
You've been told never to return

There's no explanation, no clarification
How it's made? How it works? How to use it, how to destroy?
Its eye is looking at you, calm wind is blowing through
Voices come from inside, but no one knows where is it right now
?

Blackened and burnt bronze metal hands keep the secret power
Diamond hidden in ocean's depth won't give us the answers

Source of light in the darkness
Over your mind and timeless
You feel there's something in the air
Source of light in the darkness
Over your mind and timeless
You've been told never to return
