

## Legions Of Truth

Crystal Viper

Six millions died for him  
People thought they can not win  
Forgotten blood of innocence  
Priests of evil, templars' blades  
They'll show you heaven's gates  
Is it god's wish? Where's the sense?  
Monks of doom and evil spells  
For glory of holy names  
Temples of lies full of gold  
Give them everything you have  
Or you will burn, meet the death  
Now you have no rights, you have been sold!

Is the god's will makes us suffer?  
If it's symbol of life  
Why it is cold and silent, like a grave?

The truth need to find a way  
- raise your head!  
Follow your heart and fight  
Bury the cross and be free  
Raise your head and show no mercy!

If you're different - you will die!  
What can we do, are they too high?  
Time to bring them down, show the truth!  
So many ages of lies  
Ohh, don't let them hide  
Now show the truth!  
With true evil time to fight  
Now we will bring the light  
Legion of the truth, we'll never hide!  
We don't need no cross  
We've taken our course  
Side by side!

Is the god's will makes us suffer?  
If it's symbol of life  
Is the god's will makes us suffer?  
Now we're free. It's the end... !
