

Sleeping Giants

Crystal Viper

Not made of matter, but they have a shape
Died long time ago, before man came
When they are ready, when the stars are right
They'll enter our world through the sky

They sleep awake, wait in the dark
Talk in their tombs, never died!

Sleeping giants deep in my dreams
I can hear them, they're talking to me
Shapes and colors fell from the sky
Twisting unaware world every night

Cold metal towers, multi-colored suns
Fantastic world, beyond space and time
Floating cylinders, alien universe
I crave to see them, take me there!

They sleep awake, wait in the dark
Talk in their tombs, never died!

Sleeping giants deep in my dreams
I can hear them, they're talking to me
Shapes and colors fell from the sky
Twisting unaware world every night
