

# The Witch Is Back

Crystal Viper

We've gathered here tonight  
We are bound by human sins  
Finally, the last ray of light slowly disappears  
We bleed for retribution, more than you can realize  
I'll come for you, you'll pay us with your life

I will bring new law!  
I will bring new law!  
New tomorrow, burn in fire!  
I will bring new law!  
I will bring new law!  
None of us will hide again

I hear them calling my name, ritual has begun  
Prophecy! Fulfill tonight! Evil ones must die!  
It's too late to try to wash out our blood from our hands  
Black beast will possess your souls, hell awaits

I will bring new law!  
I will bring new law!  
New tomorrow, burn in fire!  
I will bring new law!  
I will bring new law!  
None of us will hide again

Now I close my eyes  
Let myself go, to find the strength in my soul  
Now you close your eyes  
But you don't know if you'll ever open them again  
You're done, forever gone

This war lasted for way too long  
Too much torture and minds in control  
How could you place so many lies  
In every drop of innocent blood

We bleed for retribution, more than you can realize  
I'll come for you, you'll pay us with your life

I will bring new law!  
I will bring new law!  
New tomorrow, burn in fire!  
I will bring new law!  
I will bring new law!  
None of us will hide again
