

# Thundersteel

Crystal Viper

A streak of lightning is shooting through the air  
Electric sun lights the sky  
His face is frightening, so evil ones beware  
Men of disaster hear his cry

And now at last we know he's real  
The power of his sword we feel  
Thundersteel Thundersteel

The earth it rumbles, death is in the air  
The city crumbles, death is everywhere  
And from the burning sky we see the soldier fly  
He mounts his horse of steel and now he rides

And now at last we know he's real  
The power of his word we feel  
Thundersteel Thundersteel

A streak of lightning is shooting through the air  
Electric sun lights the sky  
His face is frightening, so evil ones beware  
Men of disaster hear his cry

And now at last we know he's real  
The power of his sword we feel  
Thundersteel Thundersteel Thundersteel
