

Dance Dance Dance

Crystal Waters

I knew when I first met you that something
Something it felt so strange
I knew from the start that this was something
I never will see again
Well the stars rolled down from the sky
How did I get lost, lost in your eyes?
I'm caught in the heat, I'm feeling the beat
I'm not gonna miss this chance

You make me wanna dance, dance, dance
Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna dance, dance, dance
Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna

I'm not gonna let this moment past us
That would be insane
What are the odds that this would happen?
Where would we meet again?
And I can only watch as our worlds collide
These feelings I just cannot hide
I'm caught in the heat, I'm feeling the beat
I'm not gonna miss this chance

You make me wanna dance, dance, dance
Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna dance, dance, dance
Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna

All night, all night
All night, all night
All night, all night
All night
All night, all night
All night, all night
All night, all night
All night

And what if we do, and what if we don't
Don't let me miss this chance
'Cause there's only tonight, it's the night of my life
A once in a life romance

You make me wanna dance, dance, dance
Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna dance, dance, dance

Dance, dance, dance
I wanna dance till after midnight
Makes me love the sunrise
You make me wanna dance
