

## Easy

## Crystal Waters

You don't have to prove your mettle to me, no  
You don't have to move a mountain or sail the sea, oh no

But maybe the next time you get to hear me talking  
Maybe the next time [?]  
Your heart will open wide, let my love inside  
It's all I need, I'm not so hard to please

Easy, I'll make it easy  
Easy, might get us whole  
My love's for you  
You want me, all you gotta do is wind me up

But please don't try and buy the world to see me smile, no  
Please don't try and excuse yourself with a lie, alright

But maybe the next time, I'm working with you boy  
Maybe the next time, please, can't you hear me?  
You'll be forever mine, let me see the angel cry  
It's all I need, I'm not so hard to please

Easy, I'll make it easy  
Easy, might get us whole  
My love's for you  
You want me, all you gotta do is wind me up

Easy, I'll make it easy  
Easy, might get us whole  
My love's for you  
You want me, all you gotta do is wind me up

Some people need material things  
Ain't nothing compared to what a real heart brings  
Nothing more that I could do  
Than to hope, cherish and praise a love that is true

They get to boogie, no  
They get to boogien' down  
They get to boogie, mmm  
They get to boogie down

They get to boogie, no  
They get to boogien' down  
They get to boogie, mmm  
They get to boogie down

Easy, I'll make it easy  
Easy, might get us whole  
Easy, I'll make it easy  
Easy, might get us whole

Come here, let me show you something  
You wanna see this?  
Come on, come on, come  
I got a present for you, come here I'll show it to you  
I got a surprise for you, you wanna see? Come, open it up  
Wind me up

Let's get started  
All you gotta do is wind me up  
All you gotta do is wind me up  
All you gotta do is wind me up  
Boogie, boogie, boogie, boogie, boogie, boogie  
Boogie, wind me up, bind me up  
Boogie, no, they get to boogie down  
They get to boogie, please, they get to boogie down  
Please, please

Easy, I'll make it easy  
Easy, might get us whole  
Easy, I'll make it easy  
Easy, might get us whole  
Easy, I'll make it easy  
Easy, might get us whole
