

# Guardians of the Sunrise

Crystallion

Welcome my brothers, my comrades of hell  
From fire we rose into battle we fell  
Out of the nowhere, awakened from sleep  
They're sowing their wind but our storm they will reap

Into the neverland, take my hand  
We will fight and we will see  
The dawn of a new destiny

We're the guardians of the sunrise, we march forevermore  
With the providence of victory we're stronger than before  
We're the guardians of the sunrise, the keepers of the gate  
And we believe in prophecy of fate

Free like an eagle we ride through the sky  
From dark clouded valleys to mountains up high  
Live by the truth and the power of steel  
The night's full of splendour, our swords they will feel

Into the neverland, take my hand  
We will fight and we will see  
The dawn of a new destiny

We're the guardians of the sunrise, we march forevermore  
With the providence of victory we're stronger than before  
We're the guardians of the sunrise, the keepers of the gate  
And we believe in prophecy of fate

We're the guardians of the sunrise, forever side by side  
Even through the flame and thunderstorm and through the deepest  
night  
We're the guardians of the sunrise, on burning wings we fly  
'Cause Heavy Metal's never gonna die
