

# Memories Elephant

Crywank

The good old days  
The bad old days  
Now feel the same  
Some numbness comes from growing old  
It comes in waves at least I'm told

But memories elephant still packs a punch  
And won't say goodbye to what hurt us  
And all that once healed  
No longer feels real  
Once it's served its purpose

I can get nostalgic for a time  
Where I hated being alive
