Neverland

Crywolf

Will we ever find our neverland
Will we ever be at peace again
Will we ever find our neverland
Will we ever be at peace again

I caught you sitting on the boardwalk counting shudders
Your tears were falling on the note left by your brother
Love me now, take whatever's left
We tried to reconnect but can't find one another
I saw you looking at the high, crossed, starry lovers
When I'm gone, what will you become?

(Will we ever find our neverland)
Drinking on a monday, sleeping just to numb the pain
(Will we ever be at peace again)
Further is forever, restless till the day we die
(Will we ever find our neverland)
Drinking on a monday, sleeping just to numb the pain
(Will we ever be at peace again)
Further is forever, restless till the day we die
Sleeping just to numb the pain
Restless till the day we die
Sleeping just to numb the pain

Will we ever find

Stand up, child and turn toward the lightning and thunder
So I can see what I've known for all these years
Your skin shudders with my fingers
You're cold but I know it's not your fault
The storm is coming now, can we survive somehow

(Will we ever find our neverland)
Drinking on a monday, sleeping just to numb the pain
(Will we ever be at peace again)
Further is forever, restless till the day we die
(Will we ever find our neverland)
Drinking on a monday, sleeping just to numb the pain
(Will we ever be at peace again)
Further is forever, restless till the day we die
Sleeping just to numb the pain
Restless till the day we die
Sleeping just to numb the pain
