

Parasite

Crywolf

Don't let the parasite suck it all outta your lungs
Don't let the parasymphathetic go silently out
Who are you?
Who are you?

Okay, what can I say?
No one ever said you would be looking my way
Okay, what can I say?
No one ever said you would be looking my way
No one ever said you would be looking like that

Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it

Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it

Hold while the sinking anesthetic is hollowing out
Fold, let the psychotomimetic hole shatter your light
Who are you?
Who are you?

Okay, what can I say?
No one ever said you would be looking my way
Okay, what can I say?
No one ever said you would be looking my way
No one ever said you would be looking like that

Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it
Don't let the parasite, let the parasite, let the parasite, let
the parasite suck it

Let the parasite suck it
Let the parasite suck it

The light is fading, fading away
The light is fading, fading away

The light is fading, fading away
The light is fading

The light is fading
The light is fading
