

# The Moon Is Falling Down

Crywolf

And I know  
That your hands are reaching out for what's to come  
Close your eyes  
All the waves are coming, crashing all around  
Save me, save me  
Cause the audience is gone  
And the earth around is shaking  
And the moon is falling down

You, you're falling all around me  
And the thunder and the lightning consume  
You, you're falling all around me  
Painting pictures, bleeding colors in the room
