

To Be Known

Crywolf

I knew you were asleep
When I walked away, I felt the weight of what I'd done
I should be losing faith
But everything I find is a reminder of your love

You weren't all I wanted
You aren't all I need
You're the big black something
In the middle of me

Would you love me gently, when you break my heart?
I am falling fast now
Too fast to stop
Too fast to stop

You weren't all I wanted
You aren't all I need
You're the big black something
In the middle of me

Would you love me gently, when you break my heart?
I am falling fast now
Too fast to stop
Too fast to stop
