

Fuck Everything

CSS

How many beers can you drink
Until your breath starts to stink?

I'm so high
I wanna pump it up
I'm gonna dance all night
Even if the music sucks

You know when you feel deep in the shit
Luck hit the road, left me begging in the streets
All the cards I hold are 3's or 4's
And what I'm actually doing is less than I could have asked for
I put my game-face on and try to get turned on
But nothing ever happens in this neighborhood

I wanna rip my eyes off
And scream! "Bitch, please!"

I'm so high
I'm gonna pump it up
I'm gonna dance all night
Even if the music sucks

I got a PhD in ADD
I own a broken car and a pencil case
You know what? Let me be that lazy pig
I'm gonna build my house with silver tape
Because as much as I try to talk
You won't try to understand
So what up?!

Anyway, puff puff cough cough
You're the new kid on the block

And I still wanna rip my eyes off
And scream... "Fuck everything!"

Hanging with your friends
Fuck everything!
Kicking garbage cans
Fuck everything!
Hanging with your homies
Fuck everything!
Eating pizza provolone
Fuck everything!

I'm so high
I'm gonna pump it up
I'm gonna dance all night
Even if the music sucks
Fuck everything!
