

Hits Me Like A Rock

CSS

It's been so long I heard that song
It made me sweat when I sang along
And even after all this time that went pass by
It hits me like a rock and I still don't know why
Take me on your motorcycle
Run with you through the hills
We don't care for what's wrong and what's not
I like to be with you, without a feel of what's real

But then you say we always lose our edge
But baby oh baby, is that too bad?
You know I like you a lot but

It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)

It's been so long since I heard that song
It made me cry when I sang along
And even after all this time that went pass by
It hits me like a rock and I still don't know why
You told me if we ever collide again
You would melt my brain a million times
We have too many bruises from too much kissing
And the only pain would be from too much missing

But then you say we always lose our edge
Baby baby, is that too bad?
You know I like you a lot but

It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)
It still hits me like a rock (Ooh oooh ooh)
Hits me like a rock

It's been so long I heard that song
It made me sweat all night long
(Hits me like a rock)
Still, after all this time
Hits me like a rock and I don't know why
(Hits me like a rock)

Then you said we always lose our edge
But baby oh baby, is that too bad?
You know I like you a lot but

Rock, rock, rock (Ooh oooh ooh)
Hits me like a rock (Hits me like a rock)
Rock, rock, rock (Ooh oooh ooh)
Hits me like a rock (Hits me like a rock)
Rock, rock, rock (Ooh oooh ooh)
Hits me like a rock (Hits me like a rock)
Rock, rock, rock (Ooh oooh ooh)
Hits me like a rock
Rock, rock, rock

Hits me like a rock (Hits me like a rock)
Rock, rock, rock
Hits me like a rock
