

Last night, I turned into a fly  
I got through your window and I landed in your eye  
You were sleeping, you didn't mind  
So I flew further down, inside your opened mouth

Down your throat, I tickled around  
And then you coughed me out, oh yeah, you coughed me out  
I hid behind the curtains till you fell asleep again  
I just hope you understnad, I just wanna be your friend

Out on the street, inside a rubbish bin  
Or a garbage can, depends on where you live  
Oh, I live nowhere, now I'm a fly  
I fly around, I-I-I fly around

And you will see me, hanging around  
Outside your flat, inside your car, behind the chair  
Well, everywhere  
I'll be everywhere you are, just to let you know  
I've been watching you around  
You really oughta know

I fly around, I-I-I fly around  
I fly around, I-I-I fly around  
I fly around, I-I-I fly around  
I fly around, I-I-I fly around

I, I, I, I fly around  
I fly around  
I fly around  
I fly around

Last night, I turned into a fly  
I got through your window and I landed in your eye  
You were sleeping, you didn't mind  
So I flew further down, inside your opened mouth

Down your throat, I tickled around  
And then you coughed me out, oh yeah, you coughed me out  
I hid behind the curtains till you fell asleep again  
I just hope you understnad, I just wanna be your friend
