

# You Could Have It All

CSS

You could have It all  
You could have it all!  
But then what's left for me?  
You could have it all  
You could have it all!  
But then what's left of me?

We met in the music shop  
They were playin' our favorite band  
After years of walkin' hand in hand  
We were too busy to hang with our friends

You look at me like you have no other option  
You forgot how we even got in here  
You look at me like I'm your favorite person  
But you forgot what "favorite" means  
(Are you kidding me?!)

You could have It all!  
You could have it all!  
But then what's left for me?

You could have it all  
You could have it all!  
But then what's left of me?

Uninspired in so many ways we've parted  
This sucks huh? My little bird  
I'm too young to feel like an old lady  
"Yes, Sir. No, Sir... What an absurd!"

You look at me like you have no other option  
You forgot how we even got in here  
You look at me like I'm your favorite person  
But you forgot what "favorite" means

You could have It all!  
You could have it all!  
But then what's left for me?

You could gave it all  
You could have it all!  
But then what's left of me?

Oh-no! There he comes bringin' it all up  
Oh-no! There he comes like a sore thumb  
Oh-no! There we go tryin' to fix it up  
Oh-no... Here you go... Here you go...

You could have It all!  
You could have it all!  
But then what's left for me?

You could gave it all  
You could have it all!  
But then what's left of me?
