

City Of Angels

Cub Sport

Baby, we're a stream
Running right into the ocean
Baby, we're a dream
Riding through waves of emotion
Baby, you're a diamond
Baby, you're the sun
Baby, don't forget me
When you're known by everyone

I took a break from the drinking and the drugging
I did it for my mental
Now I'm looking back on coming down all sentimental
Always nostalgic for the past, my life's so gentle now

Baby, let's stay like this

Baby, let's stay like this

We grew up in the city of angels
We didn't know, but we're surrounded by angels
And that's the beauty of time
We learn to heal and unwind
You learn to learn from your pain
We even started again
We even started again

I love making you coffee
Love when we talk about nothing
But it really means something
Everything means something with you
Even the darkest shades of blue
Oh-whoa, do you believe

Baby, let's stay like this
