

Can I give you everything that I know how
If I fuck it up, will you still be around?
If I grow my hair just to let it down
Can I let it down?

And I
Still can't believe you give a damn about me
And I'm driving in our car
I'm looking on the road, you're looking at me

I threw all my feelings down, it's just us left
And I could look at you forever, when I look at your chest
And you are a part of me, lying there in front of me
Watching on in wonder, I confess

And I
Still can't believe you give a damn about me
And I'm driving in our car
I'm looking on the road, you're looking at me

Baby, I feel happy
(Baby, I feel happy)
Baby, I feel happy
(Baby, I feel happy)

So I give you everything that I know how
If it all falls down, I'll still be around
And I'll grow my hair just to let it down
Just to let it down

And I
Still can't believe you give a damn about me
And I'm driving in our car
I'm looking on the road, you're looking at me

I still can't believe you give a damn about me
And I'm driving in our car
I'm looking on the road, you're looking at me

Baby, I feel happy
