

I Don't Love My Baby

Cub Sport

My baby doesn't seem to care, she won't get it 'cause she's unaware

She doesn't like me as much as she likes you

My baby wants to make you laugh, you won't get it 'cause she's so far

Above the place where you met me and I met you

Gotta tell her that she's smart and funny

Gotta know her that she's good with money

Guess she fits the mould but she doesn't fit me, doesn't fit me

My baby doesn't seem to care, she won't get it 'cause she's unaware

She doesn't like me as much as she likes you

And she likes you, she likes you

I don't love my baby

I don't need her or wanna see her not today

I don't love my baby

I don't wanna need her or wanna see her not today

I tell my baby what she wants to hear

But we're just talking through the months and years

Likes the lies I tell her but she doesn't like me, doesn't like me

My baby doesn't seem to care, she won't get it 'cause she's unaware

She doesn't like me as much as she likes you

And she likes you, she loves ya

I don't love my baby

I don't need her or wanna see her not today

I don't love my baby

I don't wanna need her or wanna see her not today
