

I've Never Cried So Much In My Whole Life

Cub Sport

I never cried so much in my whole life
I never (oh-oh)
I never cried so much in my whole life

I never cried so much in my whole life
Not since the time I made you my whole life
I didn't know that it could get this good
But I love my life, love this neighborhood

I used to feel the darkness on this street
The very place where we would come to meet
But, baby, we'll go back again
'Cause we deserve this, boy, we're moving up again

I never cried so much in my whole life
Not since the time I made you my whole life
I didn't know that it could get this good
But I love my life, love this neighborhood
I never cried so much in my whole life
Not since the time I made you my whole life
I didn't know that it could get this good
But I love my life, love this neighborhood

I never cried so much in my whole life
I never
I never cried so much in my whole life

I spent whole minutes looking in Eve's eyes
And I saw something far beyond the skies
I saw a love and what it's meant to be
The thing that ties us together, holding you and me

I never knew that I could be this free
I can't stop crying, angels here with me
We're getting everything we ever dreamed
'Cause we deserve this, baby, it's for you and me

I never cried so much in my whole life
Not since the time I made you my whole life
I didn't know that it could get this good
But I love my life, love this neighborhood
I never cried so much in my whole life
Not since the time I made you my whole life
I didn't know that it could get this good
But I love my life, love this neighborhood

I never cried so much in my whole life
I never
I never cried so much in my whole life
