

# Runner

Cub Sport

I like you better than anyone I thought I'd need  
We're getting better, we're getting better oh  
I can let you in, if it's me you wanna see  
I'm gonna let ya, I'm gonna let ya oh  
I like you better than anyone I thought I'd need  
We're getting better, we're getting better oh  
I can let you in, if it's me you wanna see  
I'm gonna let ya, I'm gonna let ya oh

Now I close my eyes to see a world I never knew  
In life and out of love with everything that proceeds you  
This is better than whatever I was trying to do

Begging me to take you home  
Sick of riding on your own  
But I'm a runner too  
It's killing me that I need you  
Begging me to take you home  
Sick of riding on your own  
But I'm a runner too  
It's killing me that I need you

I learned about your body, every single detail  
Two imaginations just waiting to be derailed  
I learned about your body, every single detail  
Two imaginations just waiting to be derailed
