Cubanate

I took a shot in the dark  
On a pitch black December night

I only wanted a laugh  
I said I said I needed a light  
The conversation

I never told such lies

Politics and religion  
I asked for blood  
Big time

She said, she said, she said "I'm sick, cure me"  
She said, she said, she said "I'm dirty, cleanse me"  
She said, she said, she said "I'm lost, find me"  
She said "I'm possessed, exorcise me"

And everything was wrong  
I had 60 seconds  
My vision in monochrome  
She said, "This is the end of the line"

She said, she said, she said "I'm sick, cure me"  
She said, she said, she said "I'm dirty, cleanse me"  
She said, she said, she said "I'm lost, find me"  
She said "I'm possessed, exorcise me"  
Exorcise me

She said, she said, she said "I'm sick, cure me"  
She said, she said, she said "I'm dirty, cleanse me"  
She said, she said, she said "I'm lost, find me"  
She said, she said...

She said, she said, she said "I'm sick, cure me"  
She said, she said, she said "I'm dirty, cleanse me"  
She said, she said, she said "I'm lost, find me"  
She said "I'm dead, you can't kill me"
